

**GRATITUDE-25**  
**CEP ON “NEWER INSULINS”**  
**GOVERNMENT DHARMAPURI MEDICAL COLLEGE**  
**DHARMAPURI.**

**PROGRAMME REPORT**

“**Gratitude-25**” – A Continuing Education Programme on “Newer Insulins” was organized by the Dept of Physiology, Govt Dharmapuri Medical College, Dharmapuri along with the Dept of General Medicine, under the Aegis of **Association of Physiologists of Tamilnadu**, in collaboration with the **Tamilnadu Dr MGR Medical University**, to honour the deeds of our retiring Dean, **Prof. Dr. K. Amudavalli.,M.D.**, on 7<sup>th</sup> May 2025, at the Institution Premises.

The event started with the inauguration programme headed by our honourable Dean **Prof. Dr. K. Amudavalli.,M.D** along with our chief guest **Prof. M. Muhil.,M.D., PhD PG Dip Bioethics, Professor, Dept. of Physiology**, Swami Vivekanandha Medical College, Tiruchengode & General Secretary, APT. Our APT president, **Prof. Dr. K. Muthuselvi., M.D., (Physiology).**, mam graced the occasion by joining us online.

The CME began with the enlightening speech of **Prof. M. Muhil**, Professor, Dept. of Physiology, Swami Vivekanandha Medical College, Tiruchengode. She reinforced the basics of insulin under the physiological aspects.

The second session was covered by **Dr. Manju Ramakrishnan.,M.D.**, (Pharm) Asst. Prof, Dept. of Pharmacology, GDMC. She captivated the audience by highlighting the pharmacological aspects of insulin therapy.

The last topic of the morning session – “Recent advances in insulin therapy” was handled by **Dr. G. Prakash M,D, D. Diab.**, Prof & Head, Dept. of Diabetology, GMKMCH, Salem. He enlightened the floor with all the modalities of insulin therapy, available now and are in pipeline.

The afternoon session was hands on training and workshop on insulin therapies and ECG changes in diabetes. Around 100 Post graduates and handful of faculties are given hands on training on the above by the faculties of General medicine, GDMCH.

More than 500 participants from various medical colleges across Tamilnadu and Pondicherry along with the faculties of Government Dharmapuri Medical College attained knowledge on the recent trends in the management of diabetes.

The programme was successful as it catered the needs and aims for which it was organized.
